

Stanford Fertility and Reproductive Medicine Center

We're with you every step of the way.

At the Stanford Fertility and Reproductive Medicine Center, we are committed to providing the most advanced medical treatment available, offered in an empathetic and caring environment.

PERSONALIZED ATTENTION: We are a hospital based program that gives personalized physician and nursing care from nationally recognized experts in their field.

PIONEERS IN THE FIELD: The Center leads the way in Reproductive Technology through new and innovative research utilizing cutting edge technology. Our impact on the ART field is shared through numerous award-winning publications.

STATURE: Stanford is regularly recognized as being one of the top 5 centers of its kind in the country. This elite standing is reflected in the comprehensiveness of our services and results in approximately 20,000 patient visits per year.

INNOVATIVE OPTIONS FOR CANCER PATIENTS:

We have pioneered oocyte cryopreservation and have one of the largest Fertility and Cancer programs in the country.

MULTIDISCIPLINARY: Coordinated care with experts in the areas of genetics; urology; perinatal diagnosis; and pre-implantation genetics.

SUPPORT: Our emotional and support programs are unique and an integral part of our treatment with on site therapists.

We have a non discriminatory philosophy for patient selection and treatment.
